Getting started

- Representation from all modes of transportation, various industries, logistics
- Quarterly meetings in Jan, April, July....next in Oct.
- Defining objectives and focus.

Multimodal Freight Systems

Subcommittee focus

- Identify critical freight transportation infrastructure needs: air, water ports, rail and roadways
- Identify needed “Connectors” among the various modes of freight transportation (i.e. rail intermodal)
- Measure reliability of infrastructure to support global supply chain

Subcommittee actions

- Outline infrastructure advantages and disadvantages
- Develop freight mobility map to highlight Indiana's infrastructure strengths
- Build metrics to track reliability of infrastructure
- Utilize INDOT's Multimodal Freight and Mobility Study & Plan (July 07 – July 08)
